

INDIAN SCHOOL NIZWA WORK SHEET

MATHEMATICS CH. 3 - How many squares

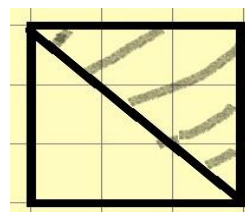

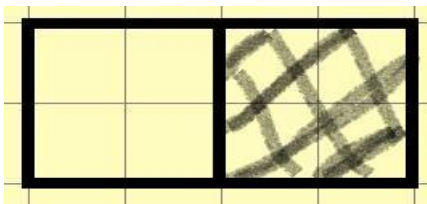

NAME:..... DATE:.....CLASS: V / SEC.....

1.

Competency-Ability to Compute

a. Is the area of both the figures same? Give reasons for your answer.

b. What is the area of the shaded part?

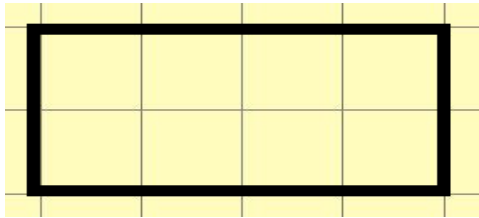

INDIAN SCHOOL NIZWA WORK SHEET

2.

Competency-Understanding Basic Concepts

- Here is a rectangle of area 8 sq.cm.
- Draw 2 straight lines in this rectangle to divide it into 1 rectangle and 2 equal triangles. Find the area of the new rectangle and the area of 1 of the triangles.

- Rearrange the squares in the rectangle to form another rectangle whose perimeter is 22 cm.
