

# INDIAN SCHOOL NIZWA - WORKSHEET

SUBJECT : SCIENCE  
CH- 5 THE WORLD OF ANIMALS

Name: \_\_\_\_\_ Date: \_\_\_\_\_ Class: I Sec: \_\_\_\_

|    |                                                                                                                                                           |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1. | Whale is a ..... (big / small ) animal.                                                                                                                   |
| 2. | ..... (birds / animals) eat with their beaks.                                                                                                             |
| 3. | Name small animals with six legs .....                                                                                                                    |
| 4. | Name two animals that live in water .....,<br>.....                                                                                                       |
| 5. | Name two birds that can swim .....,<br>.....                                                                                                              |
| 6. | Name two animals that live on land .....,<br>.....                                                                                                        |
| 7. | Name two animals that live on land as well as in water<br>....., .....                                                                                    |
| 8. | <p><b>Observe the picture given below and answer the question</b></p>  |

# INDIAN SCHOOL NIZWA - WORKSHEET

|     |                                                                                                             |            |
|-----|-------------------------------------------------------------------------------------------------------------|------------|
|     | (i) It is a..... (bird/ animal).                                                                            |            |
|     | (ii) It can ..... (walk / fly).                                                                             |            |
|     | (iii)It lives on.....(land /water )                                                                         |            |
| 9.  | <b>Observe the picture and answer the questions.</b>                                                        |            |
|     |                            |            |
|     | <p>It is a .....( insect / animal)</p> <p>It lives in .....(land /water).</p> <p>It (can/cannot ) swim.</p> |            |
| 10. | <b>Match the following</b>                                                                                  |            |
|     | Column A                                                                                                    | Column B   |
| i   | Crow                                                                                                        | Six legs   |
| ii  | Penguin                                                                                                     | swim       |
| iii | Swan                                                                                                        | Cannot fly |
| iv  | Ant                                                                                                         | Can fly    |
| 11. | <b>Circle the odd one out</b>                                                                               |            |
| i   | Fish, Rabbit, Lion, Bear, Giraffe                                                                           |            |
| ii  | Owl, Sparrow, Eagle, Pigeon, Mosquito                                                                       |            |
|     |                                                                                                             |            |
